

STRENGTHENING OUR COMMUNITIES PROJECT

Dear MSF Supporter,

July 26th

Attached is a brief overview of this year's Strengthening Our Communities project. This is to ensure you are aware of what might be unfolding in your area and to give you an opportunity along with other community members to have input or be involved in a district cluster.

This is how you can participate if you wish:

1. contact me with any ideas of topics or speakers etc that you feel could be funded to deliver under this project.
2. If you live or work near Balranald, Koroonda or Ouyen, you and your family are invited to join any of this year's district clusters. Or provide us with names and contact details of people in the smaller towns in these districts who would be willing to participate.
3. attend the district cluster meetings in your area (to be held in August and July) where the group will research options and plan how to spend \$18,500 on capacity building activities.
4. you could opt to help organize/facilitate one of the planned activities which will occur during the year or help us recruit people who can.

Please ring or email me if you would like to be involved in any capacity. All ideas and feedback is welcomed

Your sincerely

Lois Beckwith
